

Surname: Heysieattalab

First name: Soomaayeh

Address: Department of Cognitive Neuroscience, University of Tabriz, Tabriz, Iran

Email: heysieattalab@gmail.com; s.heysiyattalab@tabrizu.ac.ir

Google scholar: https://scholar.google.com/citations?hl=en&user=AGu-OTkAAAAJ&view_op=list_works&sortby=pubdate

Research gate profile: <https://www.researchgate.net/profile/Soomaayeh-Heysieattalab-2>

Education:

-B.S. Biology: Tabriz University, Department of Biology, Tabriz, Iran

-M.Sc. Animal physiology: Kharazmi University (Tarbiat Moallem University Tehran) and

Urmia University, Department of Biology, Urmia, Iran

-Ph.D. Neuroscience: Tehran University of Medical Sciences, School of Advanced Medical

Technologies, Department of Neuroscience, Tehran, Iran

Tehran University of Medical Sciences

Current position:

Assistant professor of Neuroscience, Department of cognitive neuroscience (DCN), University of Tabriz.

Research interests:

Learning and memory; Modulation of synaptic plasticity; Closed-loop modulation; Social Neuroscience; Neurodegenerative disease

Research Support:

- Iran National Science Foundation (INSF) GRANT for investigating the effect of astroglial connexin 43 inhibition on the morphine dependence and synaptic efficacy of the CA1 hippocampal neurons in rats’ project. Role: Principal Investigator

- National Elites Foundation grant for young assistant professors (Dr. Kazem Ashtiani Award, 2019)

- Tabriz u300 GRANT for Social Ranking and Decisions under Uncertainty: An Event Related Potential Study. Role: Principal Investigator

- Cognitive Science and Technologies Council (CSTC) GRANT for Neural Correlates of Working Memory, Inhibitory Control and Moral Decision Making in Different Social Hierarchies. Role: Principal Investigator

- Iran National Science Foundation (INSF) GRANT for Investigating the effect of social hierarchy formation on mPFC-vHPC circuit during performing spatial working memory cognitive task. Role: Principal Investigator

Master and Doctorate Thesis Supervision:

| Title of thesis | Full Name of Student | Role |
|---|----------------------|-------------------|
| Comparison of children's eye closed and eye opened EEG in predicting attention deficit and response control by using machine learning | Zohreh Asgharian | Supervisor |
| Behavioral and neural correlates of visual working memory in men and women with different sleep quality | Fatemeh Bakhtiari | Second Supervisor |
| The effect of transcranial random noise stimulation (tRNS) of bilateral parietal cortex on math performance, executive function, and math anxiety in Students with Specific Learning disorder with Impairment in Mathematic | Saeed Mohammadi | Advisor |
| Investigating the spatial-numerical association in adults with right-to-left reading and writing direction | Reyhane Havedanloo | Supervisor |
| The effect of transcranial direct stimulation on people's social decision-making after learning social hierarchy | Mahdiah Goudarzi | Supervisor |
| Investigation of the effectiveness of transcranial direct current stimulation (tDCS) and probiotic supplementation on risky decision-making•impulsive | Sara Derafsheh | Supervisor |

| | | |
|---|-----------------------------|------------|
| traits ‘self-control and food choice in excess weight adolescents | | |
| Recognition of common patterns between attention subscales and children's qEEG using machine learning | Sevda Abbasi | Supervisor |
| Learning-Based Non-Contact Method for Detecting Brain Signals Related to the Frontal Lobe from Facial Features | Mohammad Alaei | Advisor |
| Non-Contact Method for Generating Brainwaves of Motor Cortex with Utilizing Learning Algorithm and Facial Features | Mohamad Saeed Nazari | Advisor |
| Investigation of cognitive function of memory and quantitative electroencephalography of children of persons with Alzheimer disease | Sara Rabiee | Supervisor |
| The effect of social hierarchy on spatial working memory: evaluating the behavioral and electrophysiological indexes in olfactory bulb-ventral hippocampus–medial prefrontal cortex circuit | Elham Bakhshi | Supervisor |
| Investigating the effect of social hierarchy formation on the mPFC-vHPC circuit during performing spatial working memory task | Faezeh Zarfsaz | Supervisor |
| Feedback processing in different social hierarchies:An event-related potentials (ERPs) study | Maryam Mohamadikia | Supervisor |
| Neural correlates of decision-making under uncertainty in different social hierarchies | Saeedeh Khosravi | Supervisor |
| The effects of social hierarchy on inhibitory control: An ERP study | Sourosh Fazel | Supervisor |
| Neural correlates of verbal working memory in different social hierarchies | Hadi Mohamadpour | Supervisor |
| Neural correlates of moral decision making in different social hierarchies | Negin Safarzadeh | Supervisor |
| The effects of social hierarchy on the consumer purchase decisions | Parvaneh Nabineghad | Supervisor |
| Event related potential (ERP) correlates of negative feedback processing in perfectionists | Leyla Karami | Advisor |
| ADHD subtypes discrimination through distortion in time reproduction task: an ERP study | Fahimeh Parsaie | Advisor |
| Causal relationship between theta oscillations and working memory through using closed-loop neurofeedback system | Farhad Farkhondeh Tale Navi | Advisor |

Computing experience:

I have several years' experience using windows-compatible PCs and am familiar with the following graphical, statistical and analysis packages: Axograph, pClamp, Origin, mini Analysis, Graphpad (InStat & Prism), SPSS.

Technical Experience:

- Hippocampal and cerebellar slices preparation
- Measuring electrical activity using extracellular and intracellular recording
 - *in vitro* Patch clamp recording technique
 - *In vivo and in vitro* Field Potential
- Cell culture
- Stereotaxic Surgery & Microinjection Techniques
- Behavioral Tests: Memory Tests (Morris Water Maze, Shuttle Box), Conditioned Place Preference (CPP), Open field.
- EEG/ERP
- LFP

Education grants received:

- Ahvazi Award in 6th Iranian Congress of basic and clinical neuroscience, Tehran
- Visiting scholar in Western University of Health Sciences, 2016 USA, CA, Pomona
- 1st IBRO-APRC Associate School of Neuroscience, May 22-28, 2013, Tehran, Iran
- IUPS Travel Award to attend the IUPS Congress 2017
- IBRO-APRC AIIMS Delhi 2018 21st October to 4th November 2018
- IBRO Travel Award to attend the neuro 2019 congress 25-28 July, Japan
- ERASMUS mobility program in Cumhuriyet University, Turkey
- IBRO International Travel Grants award to attend FENS Forum 2020, Glasgow, UK
- Tehran IBRO School of Neuroscience; 26 October-6 November, 2015, Tehran, Iran (As a Teaching Assistant in patch clamp lab)
